

Per your request I have provided an exclusive list of distressed properties. This list is compiled from local and regional banks and in some cases is not even public information.

There are different stages indicated for each property. Some are in pre-foreclosure and some have already been foreclosed upon.

Eviction indicates the current owner/tenants are being evicted and the property cannot be viewed and/or bids for the property cannot be made.

Vacant and active indicates showings and offers can be made.

Pending indicates the property is already under contract and is not available anymore.

Feel free to contact me with any questions regarding any of the properties on the list or if you wish to set up a showing.

Thank you and I look forward to helping you achieve your goals.

Regards,

Tom Witt
Supervising Broker
